

The Consortium taxi drivers Coop . Rimini Radiotaxi choose System Digitax ATDS Cloud

The Consortium taxi drivers Coop . Rimini Radiotaxi choose System Digitax ATDS Cloud

The Taxi Drivers Association of Rimini has chosen to optimize their work through the new version of the system Dispatching Corse automatic Digitax Automotive Electronics.

The new cooperative of taxi drivers Rimini.

The Rimini Radio Taxi Cooperative brings together 10 taxi drivers and 5 fleet vehicles used for the transport of 4-6-8 people.

The significant innovation is the use of software , by a company of Porto Recanati Digitax, which automatically redirects the user to call the nearest taxi driver free to callers, through a satellite positioning signal through GPRS that occurs in real time .

This new technology makes the service much faster and more effective but also safer because the program keeps track of calls and allows you to monitor the data of displacements, for added security and a guarantee of professionalism.
