

Softeco Sismat used devices Digitax Force One for soundbusiness management service Disabled Transport of the Valle d' Aosta

 Softeco Sismat used devices **Digitax Force One** for soundbusiness management service Disabled Transport of the Valle d' Aosta.

The device, as well as providing support to the driver for the performance of service (list appointments, routes, lead/lag, etc.), It can record the actual boarding and alighting of passengers by interfacing to a reader smart card contact-less. The system uses this information to calculate the remuneration of the service to carriers.
